Paints

MRO High Solids Spray Paint

A superior industrial spray paint formulated for maintenance operations where maximum performance is required.

- Lead Free
- MRO high solids spray paint does not run or sag
- Get twice the coverage of conventional spray paints which will save you time and money
- Safety colors conform to OSHA & ANSI Z53.1 specifications
- Can be applied to bare metal, but for maximum protection, use our high solids primer #s: 24430 or 24431
- Average dry time is 10 minutes to touch, 30 minutes to tack free
- Suggested uses: Industrial, marine, construction, wood and metal

Other colors available on a special order basis.

Rust Tough Acrylic Enamel Paint

Rust tough aerosols are a rust-preventative acrylic alkyd enamel that offers state-of-the-art corrosion protection.

- Complete coverage with one coat
- Dries to touch in 25 minutes; dries to handle in 1 hour
- Superior appearance and color retention
- Suggested uses: small touch-up jobs, painting irregular shapes or covering hard to reach areas

Other colors available on a special order basis.

Item ID	Color	Net Weight	Case Qty
20713	Gloss White	15 oz	6
20715	Gloss Black	15 oz	6
20734	Dark Machinery Gray ANSI 49	15 oz	6

Paints

Acrylic Enamel Paint

Acrylic Alkyd Enamels feature a high-solids formula that ensures maximum coverage and performance. Tough Coat delivers the ultimate protection, durability, high gloss and color retention.

- Tough, protective coating resists chipping and peeling
- Smooth, even coverage
- Fast-drying; dries to the touch in 15 minutes
- Suggested uses: light to heavy-duty painting projects, both indoors and outdoors

Other colors available on a special order basis.

**Krylon Farm & Implement Paint*

Paints

Inverted Tip Marking Paint

- Water-based
- A fast-drying (15 minutes) marking paint designed to be sprayed in an inverted position
- Produces vivid marks, does not clog and is safe for grass
- Meets APWA color standards and is VOC compliant
- Suggested Uses: utility marking, landscaping, golf courses, construction sites, surveying and mining

Other colors available on special order basis.

Item ID	Color	Net Weight	Case Qty
23610	Fluorescent Red	17 oz	12
23700	Fluorescent Orange	17 oz	12
23701	Hi-Visibility Yellow	17 oz	12
23702	White	17 oz	12

Paints

Bright Galvanize Coating

- A restorative coating fortified with zinc for preventing rust and corrosion on ferrous metal surfaces with one coat application
- A glistening coating with 65% pure zinc in the dry film
- Suggested uses: repair of welds, handrails, rims, guardrails, metal chain fences, pipes, corrugated metal building or anywhere the bright look of hot dipped surfaces is desired

Item ID	Net Weight	Case Qty
25739	13oz	12

Zinc-Rich Galvanizing Compound

- High performance primer containing pure zinc dust pigment blended with epoxy resin
- This self-sacrificing zinc protects the base metal, preserving strength & prevents rust creepage when the area is penetrated or scratched
- Maximum operational temperature of 600°F
- Meets MIL-P-26915D
- Dry to touch in 15 minutes, Dry to handle in 1 hour
- Suggested uses: automotive, marine, refineries, industrial tanks, piping, farm equipment, wrought iron, structural steel and bridges

Item ID	Net Weight	Case Qty
25740	14 oz	12

Stainless Steel Coating

- Formulated with 100% 316L stainless steel pigment for maximum corrosion resistance on stainless steel, copper and other metals
- Dries quickly to a satin sheen, hardens overnight and cures to optimum strength in several days
- Maximum operational temperature of 400°F
- Dry to touch in 15 minutes, dry to handle in 24 hours
- Suggested uses: exhaust and steam pipes, production equipment, engines, furnaces, chemical processing equipment, mufflers, radiators, and plumbing fixtures

Item ID	Net Weight	Case Qty
25738	12 oz	12

Paints

Industrial Paint Marker

- Oil-based opaque paint, highly visible
 - Fade and abrasion resistant
 - Quick drying, permanent, and water proof
 - Patented valve-operated paint-fed fiber tip
 - 2.3 mm bullet tip
 - Marks on metal and most other surfaces
- Other colors available on a special order basis.*

Item ID	Color	Box Qty
24460	White	12
24461	Yellow	12
24462	Red	12
24463	Black	12
24464	Green	12
24465	Orange	12

Lubricants

White Lithium Grease

A high solids white NLGI 2 rated grease, excellent for metal-to-metal applications and serves as an excellent corrosion inhibitor for unpainted metal.

- Inhibits corrosion and is non-melting
- Excellent cling for overhead applications
- Operational temperature range: 20°F to 275°F
- Suggested uses: chains, gears, drives, hinges, garage door guides

Item ID	Net Weight	Case Qty
25100	11 oz	12

Lubriplate White Lithium Grease

A multi-purpose, white lithium-based grease lubricant of medium density. Sprays like a fluid, congeals to a grease.

- Exceptional penetrating qualities
- Unaffected by moisture, most chemicals and acids
- Will not run, wash off or dry up
- Operating temperature: -10° to 275°F
- Suggested uses: lightly loaded open gears, cams, couplings, slides, bearings, bushings, lift truck masts, controls and more

Item ID	Net Weight	Case Qty
25916	11 oz	12

Lubricants

Red Grease

Advanced formula safety provides lubrication and protection. Sprays out as a liquid which sets up to a thick grease in minutes. This product penetrates, lubricates, and prevents rust on all metal parts. Contains a high pressure additive that reduces wear and extends operating life of all parts and machinery. It prevents seizing and loosens frozen parts.

- Congeals to a thick grease
- Superior long life
- Resists water wash out
- Temperature range of -40°F to +575°F
- Contains corrosion inhibitors
- Suggested uses: bearings, motor shafts, roller chains, hitches, bearing surfaces, cables, pulleys, hinges, rollers, cams, couplings, bushings and more

Item ID	Net Weight	Case Qty
25902	12 oz	12

LPS 1 Greaseless Lubricant

LPS 1 Greaseless Lubricant is specially formulated to penetrate minute crevices, displace moisture, and leave behind a thin, dry lubricating film. It is the top choice for drying out critical electrical/electronic components and lubricating precision instruments.

- Resists oil, dust and dirt build-up
- Safe on paint, fabric and most plastics
- Non-conductive, VOC compliant in all 50 states
- Removes carbon build-up from surfaces
- Suggested uses: nuts and bolts, open gears, power tools, sliding mechanisms, cables, circuit breakers, electric motors, electronic connectors, generators, hinges, ignition systems, locks, micrometers, molds and more

Item ID	Net Weight	Case Qty
25205	11 oz	12

Lubricants

Mag1 Multi-Purpose Lithium Grease

Specially formulated using only the premium base oils, lithium, 12 hydroxy stearic acid & additive systems to provide outstanding lubrication & protection.

- Suitable for use in a wide variety of applications that do not require anti-wear or extreme pressure agents
- Provides resistance to wear & oxidation
- Resistant to water washout
- Functions well over a wide temperature range up to 350°F
- NLGI Grade 2
- Color: Amber

Item ID	Net Weight	Case Qty
29068	14 oz cartridge	10

Mag1 Super Lithium EP Moly Grease

Specially fortified with Molybdenum disulfide and graphite to provide protection against seizure under high loads and severe shock load conditions.

- Suitable for use in a wide variety of applications
- Fortified with molybdenum disulfide
- Extra protection against scuffing & scoring
- Outstanding performance under severe operating conditions
- Maximum protection against seizure
- Operating temperature up to 350°F
- NLGI Grade 2
- Color: Moly-Gray

Item ID	Net Weight	Case Qty
29078	14 oz cartridge	10

Lubricants

Dielectric Tune-Up Grease

Dielectric grease is a silicone dielectric compound. The compound prevents voltage leakage around any electrical connector insuring a strong spark in high energy automotive ignition systems. The compound is an excellent lubricant on rubber, plastic, and ceramic surfaces.

- Improves connections
- Prevents corrosion and fusing of spark plug boots
- Operating temperature: -65° to 400°F
- Suggested uses: spark plug boots, distributor cap nipples, battery terminals, ignition coil connectors, headlamp connectors, trailer electrical connectors and more

Item ID	Net Weight
25904	3 oz

Lubriplate No. 105 Motor Assembly Grease

Lubriplate 105 motor assembly grease is a white, waterproof NLGI #0 grease type lubricant possessing exceptional anti-seize properties. Recommended for coating all moving parts for motor assembly and rebuilding.

- Prevents “dry start”
- Provides necessary lubrication during initial startup before the motor oil has circulated, thereby preventing damage from scuffing, scoring, and friction
- Protects freshly machined engine parts from rust and corrosion
- Suggested uses: engine related parts such as pistons, rings, timing gears, main and rod bearings, press fittings, door hinges, shackle pins, wheel and nut assemblies, manual steering gear mechanisms, and more

Item ID	Container Size	Case Qty
25910	10 oz	12

Marvel Air Tool Oil

Marvel air tool oil prevents rust formation in air tools while providing positive lubrication for smoother starting, longer lasting tools.

- Assures maximum performance
- Dissolves gum and sludge that reduce tool speed and power
- Great for dressing engine compartments and protecting rubber hoses
- Suggested use: for use in all piston type and rotary air tools, as wells as in-line air lubricators

Item ID	Container Size	Case Qty
29176	4 oz	12
29175	32 oz	6

Lubricants

Torch It Penetrating Lubricant

Torch It is a high performance penetrant that quickly loosens frozen nuts and a lubricant that dries wet electric and ignition systems.

- Protects metal and prevents rust
- Corrosion blasting formula quickly cuts through build up of grease and grime
- Non-flammable and non-conductive
- Suggested uses: nuts, bolts, frozen battery terminals, jammed locks, brake cables, air tools, wet electrical systems, squeaking metal parts and more

Item ID	Net Weight	Case Qty
25710	19 oz	12

AeroKroil Penetrating Oil

AeroKroil penetrating lubricating oil is an industry proven penetrating oil that has no equal.

- Quickly loosens rusted nuts and bolts
- Displaces moisture
- Frees frozen shafts, pulleys etc
- Dissolves rust, lubricates, cleans and prevents rust

Item ID	Net Weight	Case Qty
25717	13 oz	12

Foaming Rust Penetrant

Foaming rust penetrant loosens the toughest rust and corrosion to free frozen parts. Contains only lubricants that assist in the removal of fasteners. The foaming action minimizes run off and keeps more product working.

- Penetrates corrosion and resists temperature breakdown
- Long lasting protection even under extreme pressure
- Contains graphite
- Suggested uses: nuts, bolts, jammed locks, brake cables, and more

Item ID	Net Weight	Case Qty
SP2-492885	15.75 oz	12

Lubricants

PB Blaster Penetrating Catalyst

- Breaks free rusted or frozen parts
- Protects against further rust and corrosion
- Features the new ProStraw
- Attacks rust from all angles using the unique capillary action
- Suggested uses: automotive, marine, plumbing and more.

Item ID	Net Wt.	Case Qty
25714	12 oz	12

Rust Breaker Penetrant

Heavy-duty rust penetrant quickly loosens rust while penetrating grease and dirt. This high performance, non-flammable penetrant is transparent and non-staining.

- Displaces moisture and acts as a corrosion preventative
- Quickly loosens rust and will not harm painted surfaces
- Non-flammable penetrant
- Dielectric strength of 47,400 VPM
- Suggested uses: releasing rusted or frozen bolts and lugs, lubricating tight fitting parts, general overhaul, and more

Item ID	Net Wt.	Case Qty
25103	12 oz.	12

WD-40 Lubricant

- Stops squeaks
- Removes & protects
- Loosens rusted parts
- Drives out moisture
- New smart straw has a permanently attached straw that sprays two ways

Item ID	Container Size	Case Qty
25720	8 oz aerosol	12
25719	1 gallon	4

Power Lube Multi-Purpose Lubricant

- Fast acting multi-purpose lubricant.
- This all-in-one product quickly penetrates, lubricates, stops squeaks, fights corrosion & loosens rusted parts
- Suggested uses: hinges, door locks, wheels, lug nuts, battery terminals, air tools, switches, and more

Item ID	Net Weight	Case Qty
25715	9 oz	12

Lubricants

High Performance Wet Lubricant

High Performance wet lubricant aerosol penetrates deep into corroded areas to clean and dissolve rust, grease and dirt, even in the tightest tolerances. It displaces moisture, lubricates and provides a protective film to guard against humidity and corrosion over a wide temperature range.

- Works from -40°F to 450°F and has a flash point of 200°F
- Dielectric strength: 47,000 volts
- Exceeds FED-STD-791 water displacement
- Suggested uses: machine parts, locks, catches, metal extrusions, cord, rope, paper, glass, elastomers, some plastics and more

Item ID	Net Weight	Case Qty
25727	9.25 oz	12

All Purpose Lubricant "The Protector"

All-purpose lubricant aerosol is an ultra-thin film, transparent blend of high quality petroleum distillates formulated to ensure maximum moisture displacement. Its film resists the collection of abrasive particles on delicate contacts & connectors.

- Penetrates & prevents rust
- Displaces moisture & lubricates
- Contains no silicone and is environmentally friendly
- Operational temperature range: -20°F to 500°F
- Dielectric strength of 47,000 VPM
- Suggested uses: all metal surfaces, nuts & bolts, operating controls, electrical wiring, ignition systems, circuitry, connectors and more

Item ID	Net Weight	Case Qty
25711	11 oz	12

Tri-Flow Superior Lubricant

Tri-Flow Lubricant is a superior, light viscosity lube that allows for deep penetration into hard to reach moving parts.

- Formulated with P.T.F.E.
- High grade petroleum oils provide optimum lubrication under extreme temperatures (-60 to 475°F)
- Formulated solvents soften and remove dirt and contaminants
- Prevents rust and corrosion
- Suggested uses: surfaces that slid, glide, roll, turn, twist or spin

Item ID	Container Size	Case Qty
25899	12 oz aerosol	12
25900	1 gallon	2

NEBRASKA-IOWA
INDUSTRIAL
FASTENERS CORP.

Lubricants

Dry Moly Lubricant

A superior dry film lubricant formulated with molybdenum for long lasting lubrication and anti-seize properties. Withstands high pressure, high temperatures, water and chemical attacks.

- Non corrosive, adheres to most materials
- Repels dust and dirt and greatly increases operating efficiency
- Designed for applications servicing temperatures from -28°F to 600°F
- Suggested uses: gears, chains, motors, bearings, boilers, engines, pump assemblies, conveyors, construction equipment, farm implement equipment and more

Item ID	Net Weight	Case Qty
25200	14 oz	12

Dry PTFE Lubricant

High grade multiple use lubricant and release agent. Specially made for lubricating items that require a clean, dry substance to reduce friction at medium to low load resistance.

- Repels dust and dirt
- Non-oily, non-staining
- Lubricates metal, wood, glass and paper
- Temperature operating range from 0°F to 450°F
- Suggested uses: lubricates locks, hinges, equipment linkages, pulleys, bearings, slide mechanisms, gear drives, chain drives, windows, etc. Also recommended as a mold release agent for injection molding applications

Item ID	Net Weight	Case Qty
25203	11 oz	12

Dry Graphite Lube

Dry film graphite lubricant features high lubricity and adheres to most surfaces with minimum surface preparation. The conductive formulation air dries rapidly at room temperature to provide clean, long-wearing lubrication and may be used where lubrication and electrical properties are both required.

- Operational temperature range: -40° to 850°F
- Dries rapidly and reduces friction and wear
- Conductive
- Suggested uses: pre-assembly lubrication of moving parts, gaskets, bearings, locks, springs, hinges, mating surfaces on machines, and more

Item ID	Net Weight	Case Qty
25204	10 oz	12

Lubricants

Open Gear Lubricant

A lubricant with excellent adhesion and heavy viscosity providing a tough lubrication that will not drop or be thrown off.

- Excellent long life formula, effective even in underwater conditions
- Clinging tack formula
- Lubricates and protects
- Operating temperature: 30°F to 600°F
- Suggested Uses: open or exposed chains, wire, rope, cables on heavy loads and extreme pressure, snow removal equipment, marine and dockside equipment, 5th wheels, elevators, cranes, drag lines and more

Item ID	Net Weight	Case Qty
25207	14 oz	12

Open Gear & Wire Rope Lube

Open Gear & Wire Rope Lubricant is specially formulated to penetrate the pores of metal surfaces to reach the core of wire rope. This unique formulation can be applied while equipment is running and adheres extremely well to surfaces to provide superior high temperatures and extreme pressure resistance.

- Black color assists in showing complete coverage
- Prevents rust & corrosion
- Operating Temperature: 0°F to 450°F
- Suggested uses: open or exposed gears, gear boxes, wire ropes, winches, cable, metal forming presses, roller chains, machine tools and more

Item ID	Net Weight	Case Qty
25201	12 oz	12

Moly Chain Lubricant

Moly Chain Lubricant is a high-viscosity, non-drying oil that clings to moving parts and metal-to-metal applications to provide long-lasting lubrication and reduce friction. The foaming action penetrates close tolerances of chain drive bushings and pins.

- Moly additive improves load capacity (works under extreme pressure)
- Penetrating foaming action
- Long-lasting and non-drying
- Operating Temperature: -30°F to 650°F
- Suggested Uses: chain drives & pins, forklift trucks, link & roller assemblies, tractors, machinery, work stand rollers, conveyors, sprockets, chain saws, link & roller assemblies, and more

Item ID	Net Weight	Case Qty
25202	11 oz	12

PTFE Penetrating Gel Lubricant

PTFE Penetrating Gel Lubricant is a transparent, high pressure lubricant with high adhesive strength. Easily dispensed spray penetrates tight areas by initially going on thin and immediately forming a viscous film.

- Withstands extreme pressure
- High adhesive strength
- Operating temperature: -30° to 600°F
- Suggested uses: door hinges, open gears, wire ropes and cables, chains, sprockets, conveyors, manifold head valves, and more

Item ID	Net Weight	Case Qty
25716	13 oz	12

All-Purpose Silicone Lubricant

All purpose silicone lubricant is economical for applications where petroleum based products are not desired. 5% silicone formula protects against air and moisture to slow oxidation and corrosion.

- Virtually eliminates friction and sticking
- Improves high-speed production
- Paintable
- Operating temperature: -50° to 550°F
- Suggested uses: rubber components, windows, doors, plastic assemblies, drawers, sliding wood surfaces, sliding racks, dissimilar metals, springs, hinges and more

Item ID	Net Weight	Case Qty
25206	10 oz	12

Food Grade Dry Silicone Lubricant

Food grade dry silicone is a low viscosity silicone formula compatible with most surfaces. Its ultra-thin film will not attract dust or dirt and will create a barrier to prevent rust & corrosion.

- Meets FDA CFR title 21
- Extra-dry formula for surfaces requiring no transfer
- Will not attract dust, dirt or other contaminants
- Operating temperature: -40° to 450°F
- Suggested uses: slides, food and drug processing equipment, guides, food racks, knives, slicers, heat sealing equipment, overhead drives, mixers, conveyors, chutes, and more

Item ID	Net Weight	Case Qty
25210	12 oz	12

Lubricants

Tool Kool Cutting Tool Coolant

Tool Kool Cutting Tool Coolant is a blend of fast acting coolants that extends the life of drill bits, taps, mills and reamers. Cutting Tool Coolant quickly eliminates heat at its source to ensure clean and smooth cuts.

- Nonflammable
- Reduces tool temperature without leaving a sticky residue
- Prevents heat build-up in heavy metals
- Suggested uses: for use on drill bits, taps, mills and reamers

Item ID	Net Weight	Case Qty
25209	18 oz	12

Cutting Oil

Cutting oil is an excellent lubricant specifically formulated for all ferrous and non-ferrous machining operations.

- Extends tool life, reducing tool sharpening downtime
- Clings to surfaces to reduce friction and wear
- Works on ferrous and soft metals
- Suggested uses: drilling, cutting, threading, sawing, reaming, broaching and grinding

Item ID	Net Weight	Case Qty
25208	12 oz	12

Brute Lube Cutting Fluid

Brute Lube cutting fluid is a multi-purpose cutting and tapping fluid specially formulated to extend tool life and reduce chip welding.

- Provides a precision finish with closer tolerances on finished work
- Complies with OSHA regulations and contains no 1,1,1 Trichloroethane
- Formulated to cling to tools for a continuous shield against friction and heat
- Suggested use: recommended for portable and fixed drilling, reaming, and threading applications

Item ID	Container Size	Case Qty
25903	4 oz	12

Lubricants

Mistic Metal Mover

Mistic Metal Mover lubricates to the point of cutting down heat, giving increased tool life, closer tolerance, and a finer finish. Mistic Metal Mover Original makes drilling 304 Stainless possible with a dull drill bit.

- Allows working with closer tolerances, and leaves an ultra-smooth finished surface
- Will evaporate over time leaving no contamination
- Contains trichloroethylene but no carbontetrachloride, inactive fillers, mineral oils, or 1,1,1, trichloroethane
- Suggested uses: wide variety of metal work operations including drilling, tapping, honing, boring, milling, sawing, threading, turning, or filing

Available in gallons on special order basis.

Item ID	Container Size
25940	16 fl oz

Mistic Metal Mover II

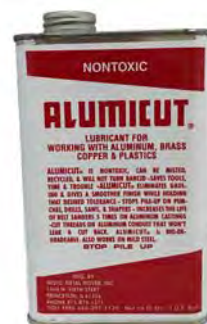

Mistic Metal Mover II lubricant has unique lubricating formula making tooling and machining operations easier while lengthening tool life. Environmentally friendly / water washable / biodegradable. Completely flushable in its original form, but check with local sewer regulations to confirm compliance.

- Allows working with closer tolerances, and leaves an ultra-smooth finished surface
- Does not contain 1,1,1, trichloroethane, chlorinated paraffins, solvents, water or sulfur, mineral or petroleum oils
- Suggested uses: wide variety of metal work operations including drilling, tapping, honing, boring, milling, sawing, threading, turning, or filing

Available in gallons on special order basis.

Item ID	Container Size
25943	16 fl oz

Alumicut

Alumicut is a superior lubricant for working with aluminum, as well as bronze, brass, mild steel, copper, and plastics. Formulated especially for non-ferrous materials, it forms an effective extreme pressure lubricating boundary between the tool and the work surface, making otherwise difficult operations a breeze.

- Eliminates galling, gouging, and tearing of material
- Instantly stops metal chip pile-up on tools extending tool life considerably
- Suggest uses: drilling, tapping, threading, broaching, punching, grinding, stamping, forming and more

Available in gallons on special order basis.

Item ID	Container Size
25946	16 fl oz

Electrical Cleaners

Electric Motor Degreaser

Electric Motor Degreaser instantly penetrates and removes dirt, oil, grease, wax and moisture from electrical equipment and machinery. Formulated to clean/degrease electrical equipment when electrical current exists or when there is a residual electrical potential from a component.

- Leaves no residue
- Dielectric strength: 39,500 volts
- Non-flammable
- Suggest uses: switches, relays, communicators, transmitters, tooling, antenna insulators, motors, machinery, equipment, controls, fuse holders, oscillators and more.

Item ID	Net Weight	Case Qty
25701	19 oz	12

Electrical Cleaner & Safety Solvent

Electrical Cleaner & Safety Solvent is a residue free, fast drying, high-power spray that dissolves grease and removes dirt and grime. The non-conductive, non-flammable spray is safe for use on motors and generators while equipment is in operation.

- Will not short motors, generators or other electrical equipment
- Non-flammable with a high dielectric strength (36,000 volts)
- Leaves no residue
- Suggested uses: air compressors, alternators, generators, electric motors, power tools and other electric equipment. **DO NOT** spray on plastics. Energize equipment use only. Not to be use for motorized vehicle maintenance or their parts

Item ID	Net Weight	Case Qty
25698	20 oz	12

Electrical Cleaners

Plastics Safe Contact Cleaner

Plastics Safe Contact Cleaner is a fast-evaporating, non-flammable electronic / electrical cleaner that leaves no residue. Can be applied while equipment is operating

- Safe on all metals and most plastics
- Dielectric strength: 19,000 volts
- Leaves no residue
- Suggested uses: computer systems, printed circuits, meters, communication equipment, hydraulic and missile fuel systems, relays, switches, precision instruments and more

Item ID	Net Weight	Case Qty
25002	12 oz	12

QD Electronic Cleaner

QD Electronic Cleaner is a petroleum distillate / alcohol based precision cleaner designed as an alternative to CFC based cleaners. Ideal for applications where lower flashpoint materials can be tolerated.

- Cleans and protects sensitive electronic equipment
- Plastic safe
- Leaves no residue
- Suggested uses: circuit breakers, circuits, computer components, contacts, fiberglass, flux removal, sockets, lighting, plastics, plugs, relay switches, terminals and more

Item ID	Net Weight	Case Qty
25005	11 oz	12

Non-Flammable Duster

Non-flammable Duster is a pressurized non-flammable gas that removes microscopic particles of lint, dust, ferrous oxide and other contaminants. This non-abrasive cleaner is also useful on delicate components and instruments.

- No harmful solvents and low conductivity
- Safe on plastic
- Eliminates noise due to dust and dirt
- Suggested uses: electronic equipment, mechanical assemblies, optical equipment, printers, personal computers, data equipment and more

Item ID	Net Weight	Case Qty
25003	10 oz	12

Cleaners & Degreasers

Electrical Degreaser

Electrical Degreaser (flash free) is a non-flammable, fast-evaporating cleaner than penetrates instantly to remove dirt, oil, grease and wax. Increases the life of electrical components by removing foreign materials that can cause costly downtime.

- Leaves no residue
- Non-flammable and non-corrosive
- Dielectric strength: 37,000 volts
- Suggested uses: electric motors, generators, air tools, brakes, clutches, chains, sprockets, wire rope, relays, material handling and more

Item ID	Net Weight	Case Qty
25848	17 oz	12

Citra Maxx Cleaner & Degreaser

Citra Maxx is a heavy duty, non-chlorinated solvent blend that safely and efficiently cleans. Citra Maxx will improve performance on equipment by removing grease, oil, dirt and other contaminants from electrical motors, parts and machinery. Has a citrus fragrance.

- Non-chlorinated, no toxic odors
- Cleans metal parts
- Suggested uses: metal parts, electric motors, equipment, tools, engines, and metal parts

Item ID	Net Weight	Case Qty
25847	14 oz	12

Big Orange HD Citrus Degreaser

Big Orange HD is a heavy duty degreaser that uses natural citrus. This versatile product can be used to remove grease, grime, oil, gaskets, protective coating and much more.

- Suggested uses: heavy duty equipment, machined parts, motors, molds and dyes.

Item ID	Net Weight	Case Qty
25850	15 oz	12

Engine Degreaser

Engine Degreaser is specially formulated to clean all mechanical engines, machinery and tools. This biodegradable formula will remove dirt, grease and varnish deposits by simply spraying on and flushing the surface with water. When flushed it emulsifies so that the contaminants are carried away, leaving the surface clean. Contains d-limonene.

- High delivery valve
- Suggested uses: automotive and marine engines, mechanical equipment, shop equipment, machinery, tools, greasy concrete floors and more

Item ID	Net Weight	Case Qty
25702	12 oz	12

Cleaners & Degreasers

Print Free Premium Glass Cleaner

Print Free Premium Glass Cleaner is designed to quickly and effectively remove dirt, grease, grime and other contaminants from a variety of hard surfaces without the possibility of streaking or leaving behind an unsightly film.

- Thick foam lifts away toughest soils
- Non-ammoniated
- Safe on tinted windows
- Suggested uses: mirrors, windows, automotive glass, tile, porcelain, stainless steel, chrome, and more

Item ID	Net Weight	Case Qty
25889	19 oz	12

The Boss Glass & Surface Cleaner

The Boss Glass & Surface Cleaner is a thick, clinging formula that eliminates waste and saves money. This product neutralizes and eliminates odors while leaving a pleasant citrus crème fragrance.

- Prevents fingerprints and smudges
 - Dries crystal clear
 - Spray nozzle sold separately – Part # 13295
 - Suggested uses: mirrors, glass, windows and most surfaces. ideal for vertical surfaces
- Available in 5 gal pails on special order basis.*

Item ID	Container	Case Qty
25890	32 oz bottle	12

Cleaners & Degreasers

HD Foaming Cleaner & Degreaser

Heavy duty foaming cleaner and degreaser. This all purpose, industrial strength cleaner degreaser clings to, penetrates, and emulsifies all washable surfaces.

- Fast acting clinging foam
- Lifts away dirt and grime and keeps surfaces like new
- Suggested uses: engines, maintenance equipment, upholstery, vinyl, chrome, stainless steel, leather, carpet, whitewall tires, metal and anywhere water can be applied

Item ID	Net Weight	Case Qty
25211	18 oz	12

General Purpose Cleaner

General Purpose Cleaner is an excellent cleaner for hard surfaces that are not ordinarily damaged by water. Cuts through dirt, grease, soil surface smears and finger marks.

- Streak proof formula
- Works on all surfaces and is VOC compliant
- Suggested uses: countertops, windows, glass mirrors, vinyl, metal fixtures, chrome, leather, truck and car interiors, and more

Item ID	Net Weight	Case Qty
25880	19 oz. can	12

Hercules 600 Cleaner & Degreaser

Hercules 600 is a heavy duty industrial cleaner and degreaser. This product is great for removing grease, oil and carbonized grease from many surfaces.

- Non-flammable, non-corrosive, non-toxic and biodegradable
- Can be diluted depending on application
- Suggested uses: concrete floors, plastic, metal surfaces, parking lots & driveways, construction equipment, quarry tile, natural stone, terrazzo, vent hoods and more

Available in 55 gal drum on a special order basis.

Item ID	Container Size
29125	1 gal
29126	5 gal pail

Simple Green Cleaner & Degreaser

Simple Green Cleaner & Degreaser is a concentrated formula that cleans, degreases & deodorizes without harsh chemicals. This is a highly versatile product that is biodegradable and non-toxic. Can be used manually or diluted with cleaning equipment.

- Non-flammable, non-abrasive, & non-corrosive
- Can be used to clean and degrease all washable surfaces
- Suggested uses: equipment, engines, machinery, floors, concrete and much more

Item ID	Container Size
29112	1 gal

Cleaners & Degreasers

Mean Green Super Cleaner

Mean Green Super Strength Cleaner and Degreaser is a powerful, multi-purpose cleaner and degreaser that can get grease out and eliminate grim from most surfaces.

- Multi-surface cleaner for inside & out
- Concentrated formula
- Suggested uses: tools, engine parts, equipment, concrete, floors, and much more

Item ID	Net Weight
29111	32 fl. oz

Stainless Steel Cleaner

Stainless Steel Cleaner cleans, polishes, brightens and protects stainless steel and other metal surfaces, such as chrome and aluminum. It can also be used on porcelain, ceramic tile and laminated surfaces. Water spots, spills, food soils and oil-based stains are easily removed.

- Resists fingerprints, water marks, corrosion and rusting
- Polishes to a non-greasy film
- Water-based emulsion formula
- Suggested uses: restaurant and food processing equipment, elevators, counters, displays, auto, trucks, trailers and more

Item ID	Net Weight	Case Qty
25885	17 oz	12

General Purpose Adhesive Cleaner

General Purpose Adhesive Cleaner is a specially blended solvent which provides easy cleanup of most types of adhesives and more. Will not harm most thoroughly cured automotive paint, vinyls, or fabrics when properly used.

- Check local air quality compliance before the use of this product
- Suggested uses: most types of adhesives, bugs, grease, oils, overspray, silicone, waxes and tars

Item ID	Net Weight	Case Qty
26045	1 qt	6

Foaming Coil Cleaner

Foaming Coil Cleaner is a specially formulated foaming coil cleaner. No rinse formula reaches all areas of coils. Inverted spray allows for easy access to all areas of unit.

- Thick clinging foam
- Non caustic and non acid formula make for safe use
- Saves time and labor of maintenance
- Suggested uses: industrial plants, automotive, hospitals, roof top air conditioner units

Item ID	Net Weight	Case Qty
SP2-493555	18 oz	12

Cleaners & Solvents

Brake Revive Brake & Parts Cleaner

Brake Revive Brake & Parts Cleaner is a non-chlorinated brake cleaner that removes fluid, grease and oily contaminants from brake linings and drums.

- Non-chlorinated
- Leaves no residue
- Not necessary to disassemble brake unit
- Suggested uses: brake linings, disc pads, drums, cylinders, springs, clutches and more

Available in 5gal pails, and 55 gal drums on special order basis.

Item ID	Net Weight	Case Qty
29054	12 oz	12

CRC Brakleen Brake Parts Cleaner

CRC Brakleen Brake Parts Clear is the original brake parts cleaner. Formulated to quickly and effectively remove grease, brake dust, brake fluids, oils & other contaminants.

- Degreases instantly
- Chlorinated
- Cleans fast, dries fast and leaves no residue
- Suggested uses: ABS, disc, drum, brake cylinders, brake drums, brake lines, calipers, clutch discs, disc brake pads; safe for use on all brake systems

Item ID	Net Weight	Case Qty
29065	19 oz	12

Mag1 Brake Parts Cleaner

Mag1 Brake Parts Cleaner removes brake fluid, grease, oil and other contaminants from brake linings and drums. It also stops disc brake squeal. It can be applied without disassembling the unit.

- Degreases instantly
- Dries quickly and completely
- Suggested uses: brake linings, cylinders, drums, clutches, springs, disc brake parts, C.V. joints and more

Item ID	Net Weight	Case Qty
29067	19 oz	12

Mag1 Non-Chlorinated Brake Parts Cleaner

Mag1 Non-Chlorinated Brake Parts Cleaner is specially formulated to quickly dissolve and remove brake fluid, grease, oil and other contaminants from brake linings and drums. Cuts job time by evaporating quickly. Will not contaminate recyclable fluids.

- Degreases instantly
- Dries quickly and completely
- Suggested uses: brake linings, cylinders, drums, clutches, springs, disc brake parts, C.V. joints and more

Item ID	Net Weight	Case Qty
29069	14 oz	12

Cleaners & Solvents

Mag1 Carb & Choke Cleaner

Mag1 Carb & Choke Cleaner is a premium non-chlorinated formulation that quickly cleans the carburetor. It dissolves and removes harmful carbon, gum, sludge and varnish deposits.

- Oxygen sensor and catalytic converter safe
- Improves fuel efficiency and performance
- Cleans internal and external parts
- Suggested uses: manifold heat control valves, PCV valves, automatic chokes, carburetors, combustion chamber, linkage, distributor shaft and more

Item ID	Net Weight	Case Qty
29066	12.5 oz	12

Specialty Maintenance

Blue Layout Dye

Blue Layout Dye applies a smooth, even coat for all layout work. Dark blue color provides sharp contrast of scribed lines against clean surfaces. Fine clean lines can be drawn on this non-glaring, non-flaking coating.

- Dries instantly and will not rub off
- Adheres to all metals, aluminum or glass
- Non-etching
- Suggested uses: tool and die-making, machining, pattern-making and maintenance mechanicals

Item ID	Net Weight	Case Qty
25603	12 oz	12

Belt Dressing

Belt Dressing has a proven record of effective performance, even when subjected to wet or outdoor conditions. This formulation conditions belts while increasing pulling power up to 50%.

- Will not glaze, collect dirt or dust
- Reduces squeaky noise cause by old V-belts
- Contains no asphalt or rosin
- Suggested uses: auto fan belts, all industrial belt drives including generators and fans, flat-round-or V-belts, farm machinery belting, rubber, leather, canvas, fabric and more

Item ID	Net Weight	Case Qty
25607	11 oz	12

Polar Premium Starting Fluid

Polar Premium Starting Fluid is formulated with a high concentration of ethyl ethers. This product will quickly and effectively start all types of gasoline and diesel engines.

- Starts stubborn engines fast
- Contains upper cylinder lubricant
- Suggested uses: all types of gasoline and diesel engines

Item ID	Net Weight	Case Qty
25922	7.5 oz	12
25923	11 oz.	12

Polar Premium De-Icer

Polar Premium De-Icer is a special formulation combined with a powerful spray that quickly melts ice and frost.

- Quickly melts ice
- Safe for most car finishes but user should avoid spraying directly on painted surfaces
- Suggested uses: for windows, locks, wipers and headlights

Item ID	Net Weight	Case Qty
25930	11.5 oz.	12

Specialty Maintenance

Heavy Duty Paint Remover

Heavy Duty Paint Remover is a fast-acting remover that cuts through all paint finishes. Its catalyst action penetrates through gasket cements, decals, sealants, adhesives, tape residue and carbon deposits.

- Removes urethanes, varnish and shellac
- Fast-acting, leaves surfaces clean and ready-to-paint
- Removes backed finishes
- Suggested uses: metal, stone, wood, brick, glass, ceramic tile, concrete, road signs, trucks, bridges, washroom walls, transportation / construction equipment and more

Item ID	Net Weight	Case Qty
25615	15 oz. can	12

Lift Off

Lift Off safely removes tar, motor oil, stickers, tapes, adhesives, chewing gum, wax, and pencil marks on a variety of surfaces.

- Certified biodegradable featuring a water-based formula
- Patented low/NO VOC formula
- Suggested uses: windows, vehicles, upholstery, tools, tile and more

Item ID	Net Weight	Case Qty
24999	11 oz	12

Specialty Maintenance

Heat Shield Gel

Heat Shield Gel is a safe, easy-to-use, non-toxic biodegradable protective heat barrier designed to prevent heat transfer during welding, soldering, brazing or other heat treatments.

- Can withstand temperatures up to 7500°F
- Helps to prevent distortion due to overheating
- Prevents weld slag from adhering to metal surfaces
- Suggested uses: sensitive valves, soldered parts, valve gasketing, washers, thin gauge metal, and other materials that could be damaged by heat during welding or soldering

Item ID	Container
29173	32 oz bottle

Battery Terminal Protector

Industrial battery terminal sealer and protector.

- Extends battery life and prevents corrosion
- Improves electrical output
- Remains flexible
- Suggested uses: busses, cars, construction equipment, trucks, vehicles and more

Item ID	Net Weight	Case Qty
25949	14 oz	12

Battery Terminal Cleaner

Industrial battery terminal cleaner w/ indicator.

- Increases battery life and improves battery function
- Leaves protective film
- Minimizes current leakages
- Will appear red in the presence of acid and yellow when neutral
- Suggested uses: busses, cars, trucks, fork lifts and more

Item ID	Net Weight	Case Qty
25948	18 oz	12

Specialty Maintenance

Rubberized Undercoating

Rubberized Undercoating is an extremely durable rust and corrosion inhibitor. A premium asphalt based rubberized undercoating that seals out moisture, prevents rust and deadens sound.

- Paintable, waterproof elastic
- Dries fast and lays down smooth with a black finish
- Resists chipping and will not crack or peel with age
- Suggested uses: trucks, farm and construction equipment, collision shops, gutter and flashing sealer, concrete and asphalt driveway cracks, and more

Item ID	Net Weight	Case Qty
25917	16 oz	12

Permatex Heavy-Duty Rubberized Undercoating

Permatex Heavy-Duty Rubberized Undercoating is rubberized for maximum durability. This product will seal, protect and insulate.

- Seals and protects against rust
- Suggested uses: automotive frames, rocker panels, wheel wells, sealing gutters, roofs, sound deadening applications and more

Item ID	Net Weight	Case Qty	Permatex #
25919	16 oz	12	81833

Permatex Rust Treatment

Permatex Rust Treatment provides a one-step rust treatment that destroys old rust and prevents new rust. Just spray on and within minutes rust disappears. The rust is then converted to a durable black protective coating. Surface rust must be present.

- Full cure time 24 hours at 77°F
- Use as a primer or finish coat
- Suggested uses: metal pipes, valve, fittings, outside surfaces of storage tanks, fences, guardrails, wrought iron, conveyors, construction and agricultural equipment and more

Item ID	Net Weight	Case Qty	Permatex #
25918	10.25 oz	12	81849

Insect Repellents & Pesticides

Multi Purpose Insect Killer

Multi Purpose Insect Killer is a synthetic permetherin-based, fast-acting flying/crawling insect spray. Kills instantly and prevents breeding.

- Non-staining formula with a residual control of up to 4 weeks
- VOC compliant in all states
- Suggested uses: flies, gnats, mosquitoes, moths, fruit flies, cockroaches, waterbug silverfish, firebrats, crickets, scorpions, spiders, lice, fleas, ticks and more

Item ID	Net Weight	Case Qty
25870	15 oz	12

Wasp & Hornet Killer

ZenKill III Wasp and Hornet Killer is a long-range, fast-acting wasp and hornet killer. Intended for outdoor use only. Residual action continues to kill as insects return to nest.

- Non-conductive formula with a dielectric strength of 41,000 volts
- Instant knockdown power featuring a jet stream spray of up to 20 feet
- Suggested uses: wasps, hornets, yellow jackets, and bees located in trees, bushes, cracks, attics, warehouses, and other areas where food items are not exposed

Item ID	Net Weight	Case Qty
25869	13 oz	12

Bug Barrier II Personal Insect Repellent

Bug Barrier II is a personal insect repellent that creates a barrier against small biting insects. This product contains DEET which has been proven to effectively repel insects.

- Spray Bug Barrier II right on your skin and these pests will leave you alone
- Repels: mosquitoes, chiggers, fleas, ticks, biting flies and other nasty insects

Item ID	Net Weight	Case Qty
25871	6 oz	12

Mosquito Barrier

Mosquito Barrier is an all-natural, liquid, garlic-based mosquito barrier. One spraying of this product will keep mosquitoes out of your yard for nearly a month. This product has natural sulfur which repels mosquitoes.

- Does not harm humans, pets or plants
- This product is a concentrate- dilute with water 33:1
- Suggested uses: grassy areas including yards, parks, athletic fields, golf courses and more

Item ID	Container Size	Coverage
25872-QT	quart	1.25 acres
25872-1	gallon	5 acres

Expanding Insulating Foams

Minimal Expanding Insulating Foam

Minimal Expanding Insulating Foam expands to take the shape of small gaps and crevices forming an airtight and waterproof bond to most surfaces. For use in small gaps and cracks. This product dries tack-free in 15 minutes and cures in 8 hours. Can be used as backer rod.

- Water resistant and fire retardant
- Interior and exterior use (must be painted for exterior use)
- Max operating temperature: 200°F
- Suggested uses: wood, metal, masonry, glass, most plastics and more

Item ID	Net Weight	Case Qty
26046	12 oz	8

Triple Expanding Insulating Foam

Triple Expanding Insulating Foam expands to take the shape of large gaps and crevices forming an airtight and waterproof bond to most surfaces. For use in large gaps and cracks. This product dries tack-free in 15 minutes and cures in 8 hours. Can be used as backer rod.

- Water resistant and fire retardant
- Interior and exterior use (must be painted for exterior use)
- Max operating temperature: 200°F
- Suggested uses: wood, metal, masonry, glass, most plastics and more

Item ID	Net Weight	Case Qty
26047	12 oz	8

Adhesives & Sealants

Premium RTV Silicone Sealant

Premium RTV Silicone Sealant is a high quality, single-component, 100% silicone sealant that is perfect for interior and exterior sealing and caulking. Product will not yellow or discolor in exterior applications. Can be used as an adhesive.

- 450°F max operating temperature
- Cures at room temperature and ambient humidity
- Low temperature flexibility and high temperature performance
- Adheres to: metal, glass, marble, tile, ceramic, porcelain, painted surfaces, non-oil woods, rubber and many plastics

Item ID	Color	Container Size	Case Qty
26060	White	10.1 fl. oz cartridge	12
26063	Aluminum	10.1 fl. oz cartridge	12
26064	Black	10.1 fl. oz cartridge	12
26065	Clear	10.1 fl. oz cartridge	12

G.E. SCS 1000 Silicone Sealant

G.E. SCS 1000 series silicone sealant is a one-component acetoxysilicone material that provides excellent weatherability and elasticity for general purpose sealing and bonding.

- Provides long-term resistance to natural weathering, humidity and temperatures
- Cures to a flexible rubber when exposed to atmospheric moisture
- Operating temperature: -55° to 350°F
- Adheres to: metal/plastic signs, sheet metal, skylights, marine hardware and more

Item ID	Color	Container Size	Case Qty
26030	Clear	10.1 fl. oz cartridge	24
26040	White	10.1 fl. oz cartridge	24

Professional Grade Caulk Gun

Professional Grade Caulk Gun that features the patented caulk buddy finishing tool with cap along with the E-Z thrust hex rod.

- 10:1 thrust ratio
- Seal puncture tool / spout cutter
- Ladder hook

Item ID
26080

Adhesives & Sealants

E6000 Self-Leveling Adhesive

E6000 Self-Leveling Adhesive is a self-leveling formula that is outstanding for bonding same or dissimilar materials with superior strength. This product has been formulated specifically to meet high performance industrial requirements. The versatility and flexibility of this product makes it an indispensable maintenance tool.

- Non-flammable, vibration proof
- Forms a permanent bond for indoor and outdoor use
- Suggested uses: aluminum, brass, iron, steel, acrylic, PVC, brick, ceramic, marble, canvas, fabric, vinyl, glass, fiberglass, rubber, wood and more

Item ID	Color	Container Size
26070	Clear	3.7 fl. oz tube
26073	Clear	10.2 fl. oz cartridge

E6100 Non-Sag Adhesive

E6100 Non-Sag Adhesive is a non-sag formulation that will not slump or run, allowing for maximum control in overhead and vertical applications. This product has been formulated specifically to meet high performance industrial requirements. The versatility and flexibility of this product makes it an indispensable maintenance tool.

- Non-flammable, vibration proof
- Forms a permanent bond for indoor and outdoor use
- Suggested uses: aluminum, brass, iron, steel, acrylic, PVC, brick, ceramic, marble, canvas, fabric, vinyl, glass, fiberglass, rubber, wood and more

Item ID	Color	Container Size
26075	Clear	10.2 fl. oz cartridge

Seal-All Adhesive

Seal-All is the adhesive mechanics trust for all their automotive and garage repairs. It adheres with superior strength to most substrates and resists gasoline, oil, paint thinner and most solvents.

- Fast dry time – sets in 2-3 minutes
- E-Z flow formula that is waterproof and abrasion resistant
- Temperature resistant – remains tough even in extreme temperatures
- Suggested uses: automotive applications, garage applications and more

Item ID	Color	Container Size
26068	Clear	1 fl. oz tube

RTV Silicone Sealants & Gasket Makers

Permatex Right Stuff Gasket Maker

Permatex Right Stuff Gasket Maker makes leak-proof gaskets and returns equipment to service immediately. This product was designed as a replacement for conventional gaskets. This elastomeric “formed-in-place” material is more reliable and longer lasting than pre-cut gaskets.

- Blowout resistant and protects against leaks and seepage
- Formulated to meet or exceed performance standards
- Sensor-safe and resists ATF, coolant, oil and other shop fluids
- Operating temperature: -75° to 450°F
- Suggested uses: valve covers, oil pans, case covers, PTO covers to housing, cover housing gasket, differentials, axle shaft flanges and more.

Item ID	Description
29208	5 fl. oz cartridge
29209	7 oz pressurized can

RTV Silicone Sealants & Gasket Makers

Blue RTV Silicone Gasket Maker

Blue RTV Silicone Gasket Maker is a high quality, single-component, 100% silicone sealant which is perfect for making formed-in-place gaskets. The blue gasket maker is the preferred choice for mechanics. This product remains flexible.

- Oxygen sensor safe
- Operating temperature: -85° to 500°F
- Suggested uses: gasketing, precision work and more

Item ID	Net Weight	Case Qty
26025	7.25 oz pressurized can	6

Red High-Temp RTV Silicone Gasket Maker

Red High-Temp RTV Silicone Gasket Maker is a high quality, single-component, 100% silicone sealant. This is your best choice for use in automotive and industrial gasketing applications. Ideally suited for use in high heat applications. This product remains flexible.

- Oxygen sensor safe
- Operating temperature: -65° to 650°F
- Suggested uses: sealing and encapsulating heating elements in appliances, aerospace gasketing, industrial ovens, and other critical bonding and sealing applications

Item ID	Net Weight	Case Qty
26026	7.25 oz pressurized can	6

Black RTV Silicone Gasket Maker

Black RTV Silicone Gasket Maker is a high quality, single-component, 100% silicone sealant. This product provides superior adhesion and remains flexible. It is a neutral cure silicone that exhibits superior adhesion, resists temperature extremes and UV deterioration.

- Oxygen sensor safe
- Operating temperature: -85° to 550°F
- Suggested uses: bare metals, painted surfaces, glass, rubber, PVC, non-oil woods, most plastics, masonry, brick, concrete, stone, vinyl siding, windows, doors and more

Item ID	Net Weight	Case Qty
26027	7.25 oz pressurized can	6

Clear RTV Silicone Adhesive & Sealant

Clear RTV Silicone Adhesive and Sealant is a general purpose silicone sealant. This product is perfect for the tool box or as a maintenance item. This product does not require the use of a caulking gun and can be recapped for later use. This product remains flexible.

- Max operating temperature: 450°F
- Suggested uses: adheres to metal, glass, marble, tile, paint surfaces, non-oily woods, and rubber; it can also be used as an adhesive for bonding surfaces together

Item ID	Net Weight	Case Qty
26028	7.25 oz pressurized can	6

RTV Silicone Sealants & Gasket Makers

Permatex Clear RTV Silicone Adhesive Sealant

Permatex Clear RTV Silicone Adhesive Sealant is a general purpose RTV indoor / outdoor sealant. This product seals, bonds, repairs, mends and secures a variety of material. May be applied to horizontal or vertical surfaces.

- Waterproof and flexible
- Operating temperature: -75° to 400°F
- Resists water, weather and vibrations
- Suggested uses: glass, metal, plastics, electrical connections, fabric, vinyl, weather stripping, vinyl tops and more

Item ID	Net Weight	Permatex #
26010	3 oz tube	80050

Permatex Black Silicone Adhesive Sealant

Permatex Black Silicone Adhesive Sealant is a general-purpose indoor / outdoor sealant. This low odor formula seals, bonds, repairs, mends and secures a variety of material. May be applied to horizontal or vertical surfaces.

- Waterproof and flexible
- Operating temperature: -75° to 450°F
- Resists water, weather and vibrations
- Suggested uses: glass, metal, plastics, electrical connections, fabric, vinyl, weather stripping, vinyl tops and more

Item ID	Net Weight	Permatex No.
26006	3 oz tube	81158
26029	12.9 oz cartridge	81173

Permatex Blue RTV Silicone Gasket Maker

Permatex Blue RTV Silicone Gasket Maker is an OEM specified, low-odor formula. This product replaces almost any cut gasket and makes reliable “formed-in-place” gaskets that resist cracking, shrinking and migrating.

- Oxygen sensor safe
- Operating temperature: -65° to 500°F
- Resists auto and shop fluids
- Suggested uses: valve covers, timing gear covers, oil pans, transmission pans, water pumps, differential covers and more

Item ID	Net Weight	Permatex #
26020	3 oz tube	80022

RTV Silicone Sealants & Gasket Makers

Permatex High-Temp Red RTV Silicone Gasket Maker

Permatex High-Temp Red RTV Silicone Gasket Maker is formulated for high-temp applications and is OEM specified. This product replaces almost any cut gasket by making reliable “formed-in-place” gaskets that resist cracking, shrinking and migrating caused by thermal cycling.

- Operating temperature: -65° to 650°F
- Resists auto and shop fluids
- Suggested uses: drive housings, exhaust manifolds, thermostat housings, valve covers, timing gear covers, water pumps, differential covers and more

Item ID	Net Weight	Permatex #
26005	3 oz tube	81160
26009	11 oz cartridge	81409

Permatex Ultra Grey RTV Silicone Gasket Maker

Permatex Ultra Grey High Torque RTV Silicone Gasket Maker was designed specially for high torque and high vibration applications like those common in import engines. This premium RTV gasket maker exceeds manufacturer’s performance requirements and is OEM specified.

- Sensor safe, low odor, and noncorrosive
- Operating temperature: -65° to 500°F
- Great resistance to oils, cooling and shop fluids
- Suggested uses: valve covers, oil pans, timing covers, differential covers and more

Item ID	Net Weight	Permatex #
26033	3 oz tube	82194
26031	13 oz cartridge	82195

Permatex Ultra Blue RTV Silicone Gasket Maker

Permatex Ultra Blue RTV Silicone Gasket Maker was developed to meet today’s technology changes. OEM specified, sensor-safe, low odor and noncorrosive are just some of the benefits. This product has outstanding oil resistance and joint movement tolerance.

- 8x more flexible than cork / composite gaskets
- 3x more oil resistant than conventional silicones
- Operating temperature: -65° to 500°F
- Resists auto and shop fluids and vibration
- Suggested uses: valve covers, transmission pans, oil pans, timing gear covers and more

Item ID	Net Weight	Permatex #
26011	3.35 oz tube	81724

RTV Silicone Sealants & Gasket Makers

Permatex Ultra Copper RTV Silicone Gasket Maker

Permatex Ultra Copper Maximum Temperature RTV Silicone Gasket Maker is designed for high operating temperatures common in 4-cylinder, turbocharged or high performance engines. OEM specified, this product is the most advanced, high temp RTV silicone gasket maker available. Sensor safe, low odor, noncorrosive and superior adhesion.

- 8x more flexible than cork / composite gaskets
- 3x more oil resistant than conventional silicones
- Operating temperature: -65° to 700°F
- Resists auto and shop fluids and vibration
- Suggested uses: exhaust manifolds, headers, valve covers, oil pans, timing covers, intake manifolds, exhaust tubes and more

Item ID	Net Weight	Permatex #
26012	3 oz tube	81878

Permatex Ultra Black RTV Silicone Gasket Maker

Permatex Ultra Black Maximum Oil Resistance RTV Silicone Gasket Maker is a fast-curing formula. OEM specified for dealership warranty requirements that ensures extended drivetrain warranty compliance. Sensor safe, low odor, and noncorrosive. This product meets performance specs of OE silicone gaskets.

- Retains high flexibility, and oil resistant
- Operating temperature: -65° to 500°F
- Resists auto and shop fluids and vibration
- Suggested uses: valve covers, oil pans, intake manifold end seals, timing covers, differential covers and more

Item ID	Net Weight	Permatex #
26004	3.35 oz tube	82180

Permatex Anaerobic Gasket Maker

Permatex Anaerobic Gasket Maker is a noncorrosive gasketing material designed primarily for use on aluminum, iron, and steel flanged mating surfaces. Ideal for on-the-spot and emergency repairs, or when conventional gasket is unavailable. OEM specified

- Fills gaps up to .015" and cures to a solvent-resistant seal
- Will not tear or decay during services
- Suggested uses: machine aluminum or metal components, transmission pans, axle covers, gear cases, pumps, o-ring replacement and more

Item ID	Container Size	Permatex #
27046	50 ml tube	51813

Weatherstrip Adhesives & Strip-Calk

3M Black Super Weatherstrip & Gasket Adhesive

3M Black Super Weatherstrip and Gasket Adhesive is a strong, flexible, rubbery adhesive that can withstand vibration and extreme temperature variants. It can be used to bond automotive weatherstripping and is a great adhesive for holding a variety of material in place during installation.

- Fast drying, strong, and flexible
- Good oil-and-water resistance
- Suggested uses: bonding automotive weatherstripping and for holding paper, cork or rubber gaskets in place during installation

Item ID	Net Weight	3M #
26050	5 fl. oz tube	08008

3M Yellow Super Weatherstrip & Gasket Adhesive

3M Yellow Super Weatherstrip and Gasket Adhesive is a strong, flexible, rubbery adhesive that can withstand vibration and extreme temperature variants. It can be used to bond automotive weathersstripping and is a great adhesive for holding a variety of material in place during installation.

- Fast drying, strong, and flexible
- Good oil and water resistance
- Suggested uses: bonding automotive weatherstripping to car doors, trunks, T-tops, moon roofs, sun roofs and for holding paper, cork or rubber gaskets in place during installation

Item ID	Net Weight	3M #
26052	5 fl. oz tube	08001

3M Black Strip-Calk

3M Black Strip-Calk is a soft non-hardening butyl rubber caulking material in one foot lengths. This product is easily thumbbed into place and smoothed with a finger. The permanently pliable formula means the sealer will not dry out and become brittle.

- Excellent high temperature resistance
- It can be painted immediately
- Suggested uses: joints, seams, voids and gaps in engine compartments, firewall, and other non-visible automotive seams, gaps, joints and more

Item ID	Container Size	3M #
26053	Box of 60ft in 1ft lengths	08578

Spray Adhesives

3M Hi-Strength 90 Spray Adhesive

3M Hi-Strength 90 Spray Adhesive is a fast-drying, transparent adhesive spray. Its extremely strong bond gives you fast results to keep projects moving forward. This industrial grade formula is easy to dispense and apply directly to surfaces and materials.

- High heat and moisture resistance
- 1 minute dry time
- Bond time: 1 to 10 minutes
- Suggested uses: rubber, plastics, fabric, cork, vinyl, foam, and cardboard attaching to metal, wood, hardboard, plastics, fabric, rubber and more

Item ID	Net Weight	Case Qty	3M #
25104	17.6 oz	12	30023

3M Super 77 Multipurpose Adhesive

3M Super 77 Multipurpose Adhesive is an extremely versatile, fast-drying and transparent spray adhesive that bonds to a wide range of lightweight materials. Its aggressive tack gives you a high initial grab and sufficient open time to position materials properly.

- Fast, aggressive tack and low soak-in eliminates clamping and dry time
- Extended bond time allows 15 seconds to 30 minutes before attaching surfaces
- Suggested uses: paper, cardboard, fabric and cushion foam attaching to plastic, metal, wood and more

Item ID	Net Weight	Case Qty	3M #
25105	16.75 oz	12	21210

3M Yellow Super Trim Adhesive

3M Yellow Super Trim Adhesive is a versatile, fast-acting, high-strength automotive trim adhesive. This product creates a secure bond between materials.

- High strength, heat resistance and moisture resistance
- Creates a secure bond on impervious metal surfaces
- Suggested uses: vinyl, heavyweight liners, hood silence pads, insulation, foam padding attaching to metal and other surfaces

Item ID	Container Size	Case Qty	3M #
26056	19 oz	6	08090

Gasket Sealants

Permatex High Tack Spray-A-Gasket Sealant

Permatex High Tack Spray-A-Gasket is a fast drying all-purpose sealant that dries to a highly tacky, non-brittle film. This reliable general adhesive remains tacky indefinitely and can be applied in advance for convenience in assembly.

- Sensor-safe
- Operating temperature: -65° to 500°F
- Resists gasoline, oil, antifreeze, axle lube, kerosene, propane and butane
- Suggested uses: valve covers, fuel pumps, carburetors, manifold gaskets and seals felt, cork, metal, paper and rubber

Item ID	Net Weight	Permatex #
26023	9 oz	80065

Permatex High Tack Gasket Sealant

Permatex High Tack Gasket Sealant is a fast drying all-purpose sealant that dries to a highly tacky, non-brittle film. This reliable general adhesive remains tacky indefinitely and can be applied in advance for convenience in assembly.

- Sensor-safe
- Operating temperature: -65° to 500°F
- Resists gasoline, oil, antifreeze, axle lube, kerosene, propane and butane
- Suggested uses: valve covers, fuel pumps, carburetors, manifold gaskets and seals felt, cork, metal, paper and rubber

Item ID	Container Size	Permatex #
26024	4 fl. oz	80062

Permatex Form-A-Gasket No. 2 Sealant

Permatex Form-A-Gasket No. 2 Sealant is a black, slow-drying sealant. This flexible paste changes to a pliable, non-hardening film through solvent evaporation. This product is approved for use in aviation as well as automotive applications.

- Operating temperature: -65° to 400°F
- Resists gasoline, oil and grease
- Suggested uses: valve cover gaskets, oil pan gaskets, threaded connections, cover plates, hose connections and more

Item ID	Net Weight	Permatex #
26002	3 oz	80016

Anti-Seize Lubricants

Permatex Anti-Seize Lubricant

Permatex Anti-Seize Lubricant is a highly refined blend of aluminum, copper and graphite lubricants. This product is used during assembly to prevent galling, corrosion and seizing due to weathering or chemicals. This also assures easier disassembly.

- Operating temperature: -60° to 1600°F
- Salt, corrosion and moisture resistant
- Suggested uses: for easy removal of spark plugs, cylinder head and exhaust head bolts, anchor pins, brake assemblies, hinges, gears, rollers and more

Item ID	Net Weight	Permatex #
29077	8 fl. oz bottle	80078

Loctite Copper Based Anti-Seize Lubricant

Loctite Copper Based Anti-Seize Lubricant is an exclusive formula that suspends copper and graphite in a high quality grease. Protects metal parts from rust, corrosion, galling and seizing.

- Operating temperature: -30° to 1800°F
- Suggested uses: copper, brass, cast iron, stainless steel, all plastics, non-metallic materials and other applications where high temperatures are present.

Item ID	Net Weight	Loctite #
29076	8 oz	51147

Dynatex Anti-Seize & Lubricating Compound

Dynatex Anti-Seize and Lubricating Compound is a heavy-duty industrial anti-seize lubricant that contains finely divided metallic particles in a special no-melt petroleum based grease. This product leaves a protective film that seals and protects metal parts even under the most extreme conditions of heat, pressure, steam and water exposure.

- Resists water, salt solution, most shop and automotive fluids
- Operating temperature: -60° to 2000°F
- Suggested uses: threaded fittings, valve shafts, casting equipment, rig drives, sprockets and chains, manifold studs and bolts, brake cams and pins and more

Item ID	Net Weight
29070	4 oz
29071	16 oz

Anti-Seize Compound

Anti-Seize Compound is a combination of finely powdered metals that serve to protect against corrosion, seizure, galling, rust carbon fusion and galvanic pitting.

- Will not melt and run out after application
- Operating temperature: 0° to 2,200°F
- Prevents seizure, galling, fusion and corrosion
- Suggested uses: threaded fittings, sprockets and chains, manifold studs and bolts, brake cam and pins, casting equipment, conveyors, valve shafts and more

Item ID	Net Weight	Case Qty
25620	11.25 oz	12

Thread Sealants & Compounds

Permatex High Temperature Thread Sealant

Permatex High Temperature Thread Sealant is a medium strength anaerobic sealant with PTFE. This OEM specified sealant locks and seals threaded fittings along with lubricating threads for easy assembly and disassembly.

- Will not shred or wear like Teflon tape.
- Resists leakage, vibration loosening, moisture, hydraulic fluids and diesel fuels
- Operating temperature: -65° to 400°F
- Suggested uses: oil and coolant lines, fuel fittings, air conditioning fittings, hydraulic fittings, air brake fittings, pipe, and much more

Item ID	Container Size	Permatex #
27050	6 ml tube	59214
27051	50 ml tube	59235

Permatex Thread Sealant with PTFE

Permatex Thread Sealant with PTFE is a general-purpose fitting sealant. This product outperforms tapes and pipe dopes and remains pliable at high and low temperatures. Lubricates threads for quick easy assembly and disassembly. Brush top container.

- Seals and resists pressure in air, oil, diesel fuel and hydraulic systems
- Operating temperature: -65° to 300°F
- Suggested uses: pipes, fittings, threaded connections and more

Item ID	Container Size	Permatex #
28055	4 fl. oz	80632

RectorSeal No. 5 Pipe Thread Sealant

Rectorseal No. 5 Pipe Thread Sealant is a soft-set, slow drying compound which seals, lubricates, and protects threaded pipe and fittings. It can be pressurized immediately. Ideal for applications with a wide variety of fluids and gases. Brush top containers.

- Max operating temperature: 140°F
- Not for use with ABS, CPVC pipe or oxygen, chlorine and other oxidizers
- Suggested uses: threaded galvanized steel, iron, brass, copper, aluminum, stainless steel, polyethylene, fiberglass, PVC pipe and more

Item ID	Container Size
27061	8 fl. oz
27060	16 fl. oz

Leak Lock Joint Sealing Compound

Leak Lock Joint Sealing Compound is a state-of-the-art high strength, pipe joint compound that is resistant to all refrigerants, oils, water and most chemicals. A resin based brushable paste which remains permanently flexible. Can handle pressures up to 10,000 psi.

- Operating temperature: -200° to 400°F
- Apply to threaded joints, flanged joints, gasket surfaces and much more
- Suggested uses: all metals and most plastics. Great for joining dissimilar metals and materials. Prevents loosening of nuts, bolts, plugs and fittings

Item ID	Container Size
27064	1-1/3 oz tube

Super Glues & Surface Prep Activator

Permatex Super Glue

Permatex Super Glue was specially designed for a faster, long-lasting bond. It is easily applied and works on nonporous materials. This product is fast drying and sets in seconds.

- Permanent, transparent bond
- Fills gaps to .004"
- Operating temperature: -65° to 180°F
- Adheres to: metal, plastics, rubber, vinyl, paper, wood, textiles and more

Item ID	Net Weight	Permatex #
27000	.07 oz tube	82190
27011	1 oz bottle	49450

Permatex Super Glue Gel

Permatex Super Glue Gel is a no drip gel formula that stays put for precise application on hard-to-reach, overhead, or vertical surfaces. This product works on both porous and nonporous materials.

- Permanent, transparent bond
- Fills gaps to .004"
- Operating temperature: -65° to 180°F
- Adheres to: metal, rubber, glass, aluminum, ceramics, vinyl, alloys, many plastics and other non-porous surfaces

Item ID	Net Weight	Permatex #
27005	.07 oz	82191

Gorilla Super Glue

Gorilla Super Glue is a high strength and quick set time adhesive designed for a variety of projects. Developed for long-lasting repairs in an instant. The clear glue dries in 10-45 seconds. Gorilla Super Glue is reinforced for increase impact resistance to handle bumps and drops.

- Clear
- Anti clog cap keeps super glue from drying out
- Adheres to: plastics, metal, stone, ceramic, paper, rubber and more

Item ID	Net Weight
27014	1/2 oz

Threadlockers

Permatex Medium Strength Threadlocker Blue

Permatex Medium Strength Threadlocker Blue is an all-purpose, medium strength threadlocker. This threadlocker is OEM specified and ideal for all nut and bolt applications 1/4" to 3/4". Locks, seals and prevents parts from loosening due to vibration.

- Protects threads from corrosion
- Removable with hand tools
- Operating temperature: -65° to 300°F
- Suggested uses: bolts, screws and more

Item ID	Container Size	Permatex #
27020	6 ml tube	24200
27022	36 ml bottle	24240

Permatex High Strength Threadlocker Red

Permatex High Strength Threadlocker Red is high strength threadlocker for heavy-duty applications 3/8" to 1". OEM specified and is well-suited for permanently locking studs and press fits. Locks against vibration loosening.

- Protects threads from corrosion
- May require head or special tools for removal
- Operating temperature: -65° to 300°F
- Suggested uses: studs, bolts, and more

Item ID	Container Size	Permatex #
27025	6 ml tube	27100
27027	36 ml bottle	27140

Permatex Large Diameter Threadlocker Red

Permatex Large Diameter Threadlocker Red is high strength threadlocker for locking and sealing large bolts and studs 1" or larger in diameter. This threadlocker is OEM specified and eliminates vibration issues.

- Protects threads from corrosion
- Heat may be required to weaken bond before parts can be disassembled
- Operating temperature: -65° to +300°F
- Suggested uses: wheel studs, frame bolts, shock absorber mounts and more

Item ID	Container Size	Permatex #
27028	36 ml bottle	27740

Permatex Penetrating Grade Threadlocker Green

Permatex Penetrating Grade Threadlocker Green is a low viscosity threadlocking liquid that wicks along the threads of preassembled fasteners to secure them in place. Ideal for fasteners ranging from #2 to 1/2". OEM specified.

- Localized heating and hand tools are needed for disassembly
- Operating temperature: -65° to 300°F
- Suggested uses: pre-assembled threaded assemblies, adjustment screws, seal porous welds, seal porosity on brake unit housings and more

Item ID	Container Size	Permatex #
27030	6 ml tube	29000
27032	36 ml bottle	29040

Threadlockers

Loctite 242 Medium Strength Threadlocker Blue

Loctite 242 Medium Strength Threadlocker Blue is a removable strength, general purpose acrylic threadlocking adhesive. This product is well suited for fasteners between ¼" to ¾" diameter.

- Removable with hand tools
- Provides controlled lubricity for accurate clamp loads
- Operating temperature: -65° to 300°F
- Suggested uses: bolts, screws and more

Item ID	Container Size	Loctite #
27054	10 ml	24221

Loctite 271 High Strength Threadlocker Red

Loctite 271 High Strength Threadlocker Red is for permanently sealing threaded fasteners. This product is well suited for fasteners up to 1" diameter.

- May require heat or special tools for removal
- Operating temperature: -65° to 300°F
- Suggested uses: studs, bolts, and more

Item ID	Net Weight	Loctite #
27055	10 ml	27121

Loctite 248 Stick Medium Strength Threadlocker Blue

Loctite 248 Stick Medium Strength Threadlocker Blue is a general purpose threadlocker for all nut and bolt applications from ¼" to ¾" diameter. It is supplied as a wax-like semi-solid, packaged in a self-feeding stick applicator.

- Primerless and oil-tolerant
- Removable with hand tools
- Suggested uses: bolts, screws and more

Item ID	Net Weight	Loctite #
27056	9 gram	37684

Loctite 268 Stick High Strength Threadlocker Red

Loctite 268 Stick High Strength Threadlocker Red is a high strength anaerobic threadlocking material. It is supplied as a wax-like semi solid, packaged in a self-feeding stick applicator.

- Primerless and oil-tolerant
- May require heat or special tools for removal
- Suggested uses: studs, bolts, and more

Item ID	Net Weight	Loctite #
27057	9 gram	37685

Retaining Compound & Epoxies

Loctite 609 Retaining Compound

Loctite 609 Retaining Compound is a general purpose, low viscosity, rapid curing anaerobic adhesive. This product augments the strength of press fit assemblies or slip fit assemblies up to .006" in diameter.

- Adds up to 3,000 psi of holding power
- Operating temperature: -65° to 300°F
- Suggested uses: parts that will need subsequent dismantling and more

Item ID	Container Size	Loctite #
27035	50 ml bottle	60931

Devcon 5 Minute Epoxy

Devcon 5 Minute Epoxy is a rapid-curing, general-purpose adhesive / encapsulant which easily dispenses and mixes in seconds. Forms a clear, hard, rigid bond, self-leveling liquid in minutes.

- Dries in 15 minutes and reaches functional strength in 1 hour
- 100% reactive, no solvents
- Suggested uses: bonds substrates such as metals, glass, ceramics, concrete, wood in all combinations and more

Item ID	Container Size
28076	25 ml

Fixit Quik Epoxy Putty

Fixit Quick Epoxy Putty will plug or seal practically anything that leaks. It will patch holes and cracks, mend almost anything that is broken. It is excellent for rebuilding or fabricating parts. Hardens like steel in 20 minutes.

- Starts to harden in 2 minutes after mixing.
- Can be drilled, filed, tapped, sanded and machined after 1 hour of curing
- Max operating temperature: 300°F
- Suggested uses: plumbing repairs, electrical, ceramic repair, auto repair, underwater repair, custom formed gaskets, home repair and much more

Item ID	Net Weight
28075	4 oz tube

Epoxies

Permatex Cold Weld Bonding Compound

Permatex Cold Weld Bonding Compound is a 15-minute, 2-part adhesive and filler system that eliminates the need for welding or brazing. Once cured, it can be drilled, tapped, threaded, filed, sanded and painted. Over 3,000 psi shear strength on steel.

- Resists most automotive, shop and cleaning fluids
- 4-6 minute gel time, 10-15 minute fixture time, 16 hour full cure time
- Operating temperature: -60° to 300°F
- Suggested uses: repairs, fills and bonds to iron, steel, brass, bronze, aluminum, copper and more

Item ID	Net Weight
26016	2 - 1 oz tubes

J-B Weld

J-B Weld is a two-part epoxy system that provides strong, lasting repairs to multiple surfaces. Mixed at a ration of 1:1, it forms a permanent bond. It can be shaped, tapped, filed, sanded and drilled after curing. J-B Weld has a tensile strength of 3,960 psi.

- At room temperature, 4-6 hours to set and 15-24 hours to fully cure
- Max operating temperature: 500°F
- Suggested uses: metal, wood, plastic, tile, PVC, ceramic, fiberglass, concrete and more
